side, in the Ghetto of New York, Jews feasted and prayed from last night until noon to-day when the glorious notes of the shofar, or ram's horn, were heard proclaiming the birth of a new year for the world and its children.

While business on the east side was almost entirely suspended and the synagogues were crowded, the more prosperous Jews of the upper section of the city flocked to the Temple Emanu-Eli on Fifth avenue and listened to a stirring sermon by the Rev. Dr. Joseph Sliverman.

In the course of his sermon Dr. Sliverman said:

"There is a religious awakening all over the world. We realized it at the death of the Pope, And Judaism is feeling the effects of this new religious awakening. At the present time the darkest night for Israel is in Rassia, where every ordinary right to labor, of obtaining an education, of practising a profession, of holding property, is denied the Jew.

"The recent massacre at Kishineff we have learned authentically had been sanctioned by the authorities. It was a dark night in the life of Israel-but fits morning has come-and dawned in America. We cannot too often and too energetically express our gratitude for the manner in which the President of our country and all our fellow-citizens protested against the barbarity of the Czar's government.

How It Is Heated.

"America, with its heroic President, at the request of the I. O. B. B. set a precedent to the world for courageous action. Let no one say that the protest failed. There is no failure for the right. America did its duty in the interest of humanity, in the name of justice."

The religious ceremonies attending the birth of a new year will be continued until to-morrow night. Then, next Thursday will come the Jew's greatest holy day of the year, the day of atonement.

On that day every Jew, good or bad, will fast, refraining from drink, smoking or any other thing to appease the worldly appetite, and will pass the time in prayer and supplications to God.

Fall Millinery Displays.

Parisian and American Creations. Wednesday and Thursday, September 23 and 24, Introductory Show Days.

THE most elaborate and most imposing Fall Millinery Display in the history of the Siegel Cooper Store.

There is every reason why these Autumnal Shows should be of transcendent interest and remarkable scope.

1-We have what is unquestionably the finest Millinery Salon in the United States. The appointments are magnificent. There are Hats of every wanted description.

2-The resources of the Store in obtaining and presenting new styles are virtually lim-

3-We send men and women of broadest experience to Europe to study styles and create new conceptions.

4-We maintain a large and perfectly trained organization of designers and fashioners at home.

BECAUSE OF THE SEVENTH BIRTHDAY CELEBRATIONS OF THE BIG STORES

5-Our salespeople know every detail of millinery. They intelligently and politely aid you in selecting the Hat that becomes you best.

These facts are impressive because they are observable even to the most inexperienced eye. Consequently this Autumnal Opening attains a degree of interest and importance that is not to be equalled by any of our competitors, no matter how ambitious their efforts may be.

We sell an extraordinary number of Hats—many thousands every year. Our Millinery business is thriving marvellously. But could it if we did not give the women of New York and vicinity the very Hats that become them best?

This Is an Eminently Representative Display of the Foremost Fall Styles.

Anybody who knows Millinery can tell that at a glance. The Millinery Salon on the 2d Floor impresses you. Why? It is elegance typified. The fixtures are modelled after a leading French school of architecture. The mirrors glisten; the lights shed a glamour of artistic refinement. But, what interests you most vividly is the assemblage of Hats.

Candidly, we do not believe there is another such thoroughly desirable showing in the United Hats that women can wear. And that's a strong point. Not garish, flaunting things for sensashow purposes; but hats that define refinement and good taste with emphasis.

Precisely such Hats as appeal with insistent force and fervor to the woman who wants a Hat that will become her best, and yet who seeks to shun extravagance of price.

Of Course, There Are Many Very Fine Hats; and Naturally, Great Varieties at Very Moderate Prices.

You see in these Autumn Hats the true spirit of the artistic designer, and mirrored with the same artistic fidelity as in a jewel that catches, imprisons and then reflects the rays of a flashing light.

Hats for every face. Not practically the same hat for all sorts of faces. There is pronounced individuality; there is a characteristic elegance, a winsome brilliance of style, a definite and harmonious accomplishment of well-directed purpose that lift these creations had been described in the same artistic fidelity as in a jewel that for every face. Not practically the same hat for all sorts of faces.

tions high into the sphere of the exceptional.

France would rave over such an exposition. London would go into ecstasies. Phlegmatic Berlin would applaud. Vienna would say "Bravol" Even New York women, who are accustomed to all sorts of surprises, will view with unfeigned delight this very remarkable Fall showing.

Foremost among the embellishments are fruits, flowers, foliage, ribbons, wool lace, ostrich piumes and tips, gold trimmings, birds, velvets, plushes, chenile, chiffon, jets and silk beaver.
Hats for every purpose, Walking Hats, Carriage Hats, Picture Hats, Theatre Hats, Bonnets, Turbans and Toques.
